GB 17161	It was suggested that a Governing Body Development Session would be beneficial when the standard was established and data was available. PP commented that that Category 4 emergencies were performing better than Category 3 emergencies.	The development session is on the forward planner as a potential for 2018/19	Andy Hall	Andy Hall	
GB 17/161	The indicator for IAPT – entering treatment had not been met. AH explained that the CCG was in dialogue with NHS England around the increase in prevalence reported nationally. The reported increase for NNE CCG was far in excess of the national average increase. AH hoped to provide clarification on the agreed prevalence and the subsequent expected number of patients entering the service for the next		Andy Hall	Andy Hall
